

Welcome to the Bridge to Recovery!

We are so glad that you are here and we want this journey to be educational, inspirational, and enjoyable.

We know that many people are anxious or skeptical upon arriving at the bridge. Please know that most of us felt this very thing at our first meeting. Give it a couple weeks. Don't judge this place after just one meal. Get started in the books and see what God can do!

Tonight you will see that this program is all about CONNECTIONS. First we will CONNECT with God. We will do this all together in one room through prayer, praises, and a lesson,. Then we will break into small groups and CONNECT with others. You will have a moderator who will lead your group and you will be assigned a peer with whom you will find accountability. Before you leave this place tonight you should acquire your workbooks to help you CONNECT with yourself during the week.

You will have two workbooks. One book will give you some work to do on your own time during the week. You will use the second book to record your thoughts as you read. This will help you to do an introspective look at what brought you here, what you are hoping to accomplish, and what God can do in and through you as you travel on this BRIDGE TO RECOVERY!
